Grip Strength
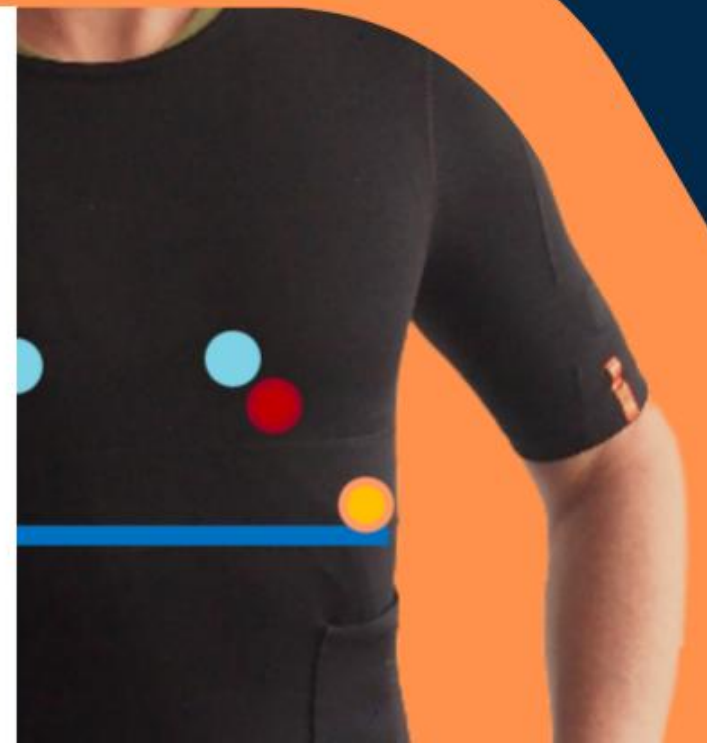

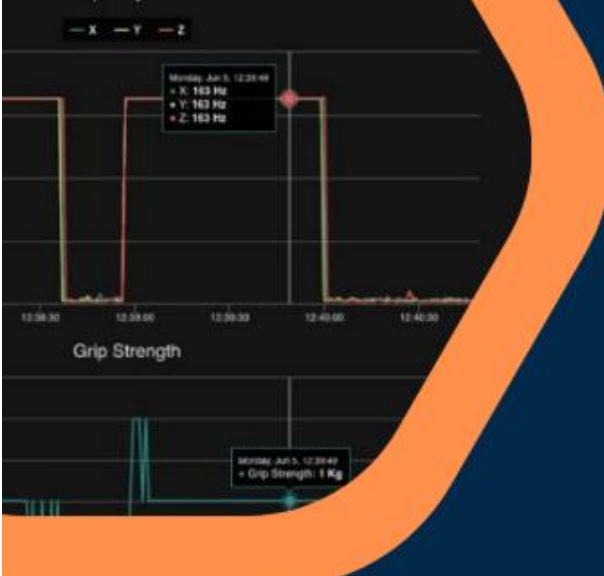

Real-Time Data Solutions

We build platforms for sensor data acquisition and analysis.

Edge-AI for real-time, real-life monitoring. Anywhere, anytime.

Key Features

Open Architecture

APIs to integrate data into your systems, offering raw data access.

Advanced AI-Algorithms

Body monitoring and motion tracking via intelligent AI-algorithms.

Smart Textile Integration

Flexible carrier systems using smart textiles and wearable solutions.

Data-Driven Solutions

Interactive Wear delivers sensor data solutions for mobile applications and monitoring.

Open architecture, smart textiles and fast prototyping make Interactive Wear your top choice.
